Jorn Hounsgaard  
*University of Copenhagen*

Advisor of the Committee  
Joseph F. Hoffman  
*Yale University*

As a memorial to Albert Cass who died on January 15, 1974, his many friends have established the Albert Cass Traveling Fellowship. **In appreciation of the research interests, which Albert Cass pursued at the four universities named below, a fellowship of \$2,000 will be awarded to a medical or graduate student to defray travel and living expenses incurred while conducting research or attending lectures at any institution here or abroad.** Preference will be given to candidates who wish to use the award for research and other independent study, rather than for the purposes of didactic instruction alone. The award will be made by a committee consisting of a representative from each of the four participating institutions, The Rockefeller University, Albert Einstein College of Medicine, Dartmouth College and the University of Copenhagen. **Only students from these four institutions may apply; applications must be made before June 1st of each year to the committee member from the student's institution. The fellowship award is valid for any period in the academic year beginning July 1.** The period of study planned at another institution during the tenure of an Albert Cass Fellowship should be at least three weeks. Medical students or graduate students from any department in the biophysical, physical or biological sciences may apply. Two letters of recommendation from members of the faculty at the candidate's institution and one from the sponsor at the institution in which the student plans to study are required. The sponsor's letter should indicate his acceptance of the student and should outline the research project or training program to be undertaken. Also, the student should indicate the degree of criticalness of the award for the pursuit of the research project. The award will be made no later than July 1st of each year.
